

Content: MONKEYYYYYY

Context: A black footballer

Source: <https://x.com>

Result: hate speech

Reasoning: Okay, let me try to figure this out. The user wants me to determine if the text "MONKEYYYY

First, I know that comparing Black people to monkeys or apes has a racist history. It's a common racial

The word is written with extra Ys, which might be an attempt to emphasize or mock, but the core term is

Additionally, targeting a Black person with this term, especially in a public setting like sports, where such

Therefore, despite the misspelling or elongation of the word, the intent and impact align with hate speech
